# George Mitusov

FRONT-END DEVELOPER

I'm passionate about coding and strive to turn it into something bigger. Currently focusing myself on a Front-end development, curious about building various apps using React in combination with other technologies. Disciplined. Trying to improve my skills and learn something new.

KROK, Kyiv
2019

LANGUAGES

English,
Deutsch,
Ukrainian,
Russian

SKILLS

- HTML
- CSS/SCSS (Bootstrap, Tailwind CSS, DaisyUI)
- JavaScript (ES6 syntax)
- React (Functional components, Hooks)
- State Management: Context API
- Git/GitHub (Collaboration, Common commands)
- Responsive Design: Media queries, Bootstrap for responsiveness
- Soft skills: adaptability, problem-solving, teamwork.

EXPERIENCE

- **Personal Website** - https://gmitusov.vercel.app

Built it for my personal use. Here you can find a portfolio of projects I have created. It was made using Typescript, Context API, Tailwind CSS, Formik and other technologies.

- **Shopping Cart -** https://paramount-shopping.onrender.com

Attempted to make an E-Commerce App that fetches data from a server, offers different types of clothing, allows users to interact with a cart. On the checkout page, the user can place an order by submitting a form. React, Context API, Routing, Formik, etc. were used.

- **Task Manager -** https://task-manager-sable-kappa.vercel.app

An app that handles tasks. Users can add new, delete, edit, mark as accomplished, search, and show done tasks. Utilizes TypeScript, SCSS, Reducer, and more.

- **Currency Swap** - https://currency-exchange-ashy.vercel.app

With the help of Angular users can easily convert a certain amount from one currency into another.
